

PRODUCT SPECIFICATION

UniWipe™ Nonwoven Wiper

Product Description

UniWipe™, a solvent-resistant blend of cellulose and polyester, is an all-purpose wiper engineered for general cleaning. Manufactured using exclusive technology, *UniWipe™* is clearer and more absorbent than other traditional nonwoven wipers.

UniWipe™ is excellent to use for general maintenance where high absorbency is required. It is good at picking up liquid spills, polishing and cleaning of relays, contacts, switches and cleaning lab apparatus.

Features

- Solvent resistant
- Low particle generation
- High absorbency
- Excellent wet and dry strength

Application

- General maintenance where high absorbency is required
